Top 3 conversion vulnerabilities & missed revenue

The three problems that hurt lead volume and cost per lead the most.

01 Accelerate Core Web Vitals and mobile LCP

CONVERSION VULNERABILITY | NEEDS ATTENTION

PROBLEM	Even with decent averages, mobile LCP and INP can reach the targets: 1.5 s and 200 ms.
BUSINESS LOSS	Each +100 ms latency reduces conversion and increases cost per lead.
ERYTHRO.AI SOLUTION	Next-gen images, critical CSS and CDN caching by Erythro.ai.

02 AI qualification of inbound leads

CONVERSION POTENTIAL | GROWTH OPPORTUNITY

PROBLEM	Leads handled manually without auto-qualification and routing.
BUSINESS LOSS	First response time grows; leads lost between email and CRM.
ERYTHRO.AI SOLUTION	Erythro.ai n8n/CRM AI agents: qualify, route and task 24/7.

03 Expand multilingual funnel

CONVERSION POTENTIAL | GROWTH OPPORTUNITY

PROBLEM	Locales work but lack per-market nurture flows and landings.
BUSINESS LOSS	One offer for all markets converts worse than localized journeys.
ERYTHRO.AI SOLUTION	Cross-cultural landings and offers for RU / EN / HE by Erythro.ai.

Funnel review: the lead path through AI eyes

10 FUNNEL PAGES

AI walked the visitor path across the funnel pages, including modal forms, chat and messengers.

VERDICT

Gaps found on the lead path: 3.

GAPS (UP TO 3)

Gaps: 3

MAIN FUNNEL RECOMMENDATION

Close the first gap on the list — it affects leads the most.

Speed & Core Web Vitals

AI Visibility: How AI Search & LLM Agents Discover the Site

STRATEGIC FOCUS 2026

Readiness and indexing analysis for ChatGPT Search, Perplexity AI, Claude, and Google Gemini Overviews.

ChatGPT Search (GPTBot)

ACCESS OPEN

robots.txt lets GPTBot, ChatGPT-User in: the model reads pages and can cite the site in answers.

Perplexity AI (PerplexityBot)

ACCESS OPEN

robots.txt lets PerplexityBot in: the model reads pages and can cite the site in answers.

Claude (Anthropic)

ACCESS OPEN

robots.txt lets ClaudeBot, anthropic-ai in: the model reads pages and can cite the site in answers.

Google Gemini & AI Overviews

ACCESS OPEN

robots.txt lets Google-Extended in: the model reads pages and can cite the site in answers.

7 AI Visibility criteria · 7 of 7 criteria

Machine-readable /llms.txt — PASSED

HTTP 200; heading, brand and structure: 3 of 3.

MCP manifest /.well-known/mcp — PASSED

Site description for AI agents in MCP format.

/about page with brand facts — PASSED

A source of verified company facts for model answers.

AI-bot access in robots.txt — PASSED

Bots allowed: 8, blocked: 0.

Schema.org Organization (JSON-LD) — PASSED

Name, URL, sameAs, contacts: 4 of 4; FAQPage present.

/llms.txt linked from HTML — PASSED

Models find the catalogue straight from the page.

Analytics: dataLayer and consent — PASSED

dataLayer: yes, consent: yes, GA4: yes — AI-search traffic is measurable.

Agent Readiness L1 — readiness for AI agents · 5/5

robots.txt — PASSED

The file is reachable and valid.

sitemap.xml PASSED

URLs in the sitemap: 25.

AI crawler rules PASSED

Explicit AI-bot rules in robots.txt.

Content Signals PASSED

ai-train=no, search=yes, ai-input=yes

Markdown for agents PASSED

text/markdown served on an agent request.

Executive Strategic Takeaway

AI Visibility 100/100: 7 of 7 criteria, Agent Readiness L1: 5 of 5. The site is open to AI search and agents. Keep /llms.txt and Schema.org current with every release.

Lead path

WORKING

Verdict: all 10 audited funnel pages provide lead capture via form, messengers or the built-in AI consultant (Live Chat). Conversion path is fully operational.

How we count the lead path: an embedded form, a form opened by a button (Let's Talk), chat and messengers. A button without a form is a CTA, not a funnel gap, if the click opens a form or WhatsApp.

Recommended actions

Fix order: work from top to bottom, from the most urgent to the least. The color shows urgency and matches the statuses in the checklist.

Critical — fix first Needs attention — plan it Growth — when possible

Accelerate Core Web Vitals and mobile LCP

STEP 1

SPEED NEEDS ATTENTION

Each +100 ms latency reduces conversion and increases cost per lead. Next-gen images, critical CSS and CDN caching by Erythro.ai.

`next.config.mjs:8-22`

```
// next.config.mjs:8-22
// Automatic image optimization and cache TTL for Core Web Vitals:
images: {
  formats: ['image/avif', 'image/webp'],
  minimumCacheTTL: 31536000,
  deviceSizes: [375, 640, 750, 1080, 1200]
},
compress: true
```

WCAG 2.1 AA / IS 5568 Accessibility compliance

STEP 2

ACCESSIBILITY NEEDS ATTENTION

WCAG 2.1 AA / IS 5568 accessibility: alt attributes and accessible button labels

`src/components/Footer.tsx:55-80`

```
// src/components/Footer.tsx:55-80
// 1. Informative alt attributes for images:
<Image src="/images/logo.svg" alt="Erythro.ai" width={140} height={40} />
// 2. Accessible labels for icon buttons:
<button type="button" aria-label="WhatsApp consultation" onClick={openWhatsApp}>
  <WhatsAppIcon aria-hidden="true" />
</button>
```

Expand multilingual funnel

STEP 3

SEO & FUNNEL | GROWTH OPPORTUNITY

One offer for all markets converts worse than localized journeys. Cross-cultural landings and offers for RU / EN / HE by Erythro.ai.

src/app/(frontend)/layout.tsx:75-97

```
// src/app/(frontend)/layout.tsx:75-97
export async function generateMetadata(): Promise<Metadata> {
  return {
    alternates: {
      canonical: '/',
      languages: {
        'en': '/?lang=en',
        'ru': '/?lang=ru',
        'he': '/?lang=he'
      }
    },
    openGraph: {
      images: [{ url: '/images/og-image.png', width: 1200, height: 630 }]
    }
  };
}
```

AI qualification of inbound leads

STEP 4

LEAD CAPTURE | GROWTH OPPORTUNITY

First response time grows; leads lost between email and CRM. Erythro.ai n8n/CRM AI agents: qualify, route and task 24/7.

src/app/api/lead/qualify/route.ts:12-35

```
// src/app/api/lead/qualify/route.ts:12-35
// Automated AI lead qualification and routing 24/7:
export async function POST(req: Request) {
  const { name, contact, inquiry } = await req.json();
  const lead = await erythroAI.qualify({ inquiry, threshold: 0.8 });
  await crm.dispatch({ name, contact, priority: lead.score, channel: lead.intent });
  return Response.json({ status: 'routed', priority: lead.priority });
}
```

Mandatory HTTP security headers

STEP 5

SECURITY | GROWTH OPPORTUNITY

Configuring mandatory HTTP security headers (HSTS, NoSniff, SameOrigin)

next.config.mjs:15-32

```
// next.config.mjs:15-32
async headers() {
  return [{
    source: '/:path*',
    headers: [
      { key: 'Strict-Transport-Security', value: 'max-age=63072000; includeSubDomains; preload' },
      { key: 'X-Content-Type-Options', value: 'nosniff' },
      { key: 'X-Frame-Options', value: 'SAMEORIGIN' }
    ]
  }];
}
```

AI Search Visibility: llms.txt & signals

STEP 6

AI DISCOVERY | GROWTH OPPORTUNITY

Permit AI search citations (ChatGPT, Perplexity) while blocking unauthorized model training

public/robots.txt:1-8

```
# public/robots.txt:1-8
User-agent: *
Allow: /
# Content-Signal: allow search citations, prohibit unauthorized model training:
Content-Signal: search=yes, ai-input=yes, ai-train=no
Sitemap: https://erythro.ai/sitemap.xml
```

Full audit checklist

RESULTS: 28

NEEDS ATTENTION

Accessibility WCAG 2.1 AA / IS 5568

CHECK RESULT

img without alt: 2; unlabeled buttons: 0; axe-core: 0

RECOMMENDATION

Close WCAG 2.1 AA and IS 5568: alt on informative images, aria-label on icon buttons, contrast and focus.

Re-run axe-core at 375px before release.

GROWTH OPPORTUNITY

SEO, OpenGraph and messenger preview

CHECK RESULT

EN: title yes, description yes, og:image yes, canonical yes. RU: title yes, description yes, og:image yes, canonical yes. HE: title yes, description yes, og:image yes, canonical yes; hreflang missing

RECOMMENDATION

Lock messenger previews: unique title and description per locale, og:image 1200×630, canonical and hreflang between languages.

html lang must match the page language.

EXCELLENT

Horizontal overflow (Overflow-X at 375px mobile)

CHECK RESULT

Fits smartphone viewport (0px overflow)

RECOMMENDATION

Overflow-X is clean: 0px at 375px (iPhone SE).

Lock a 375–430px grid regression in releases so blocks, sliders and absolute layers stay inside the viewport. Re-measure on every locale.

EXCELLENT

RTL layout for Israel (Hebrew)

CHECK RESULT

RTL active, headings aligned right (text-align: center)

RECOMMENDATION

RTL is declared correctly. Keep html dir="rtl" / lang=he and mirrored menus, sliders and forms in future releases.

EXCELLENT

Lead forms, anti-spam & instant response

CHECK RESULT

Forms: 2 (via button). Email: yes, phone: yes, submit: yes. Anti-spam: Cloudflare Turnstile, Honeypot. Instant channel: chat [class*="chat-launcher"]

RECOMMENDATION

Lead capture is in place: form, anti-spam and an instant channel.

Do not drop the honeypot, Turnstile/reCAPTCHA or wa.me (or chat) in the next release — spam rises and mobile leads disappear.

EXCELLENT

llms.txt & MCP discovery

CHECK RESULT

/llms.txt HTTP 200; /.well-known/mcp JSON OK

RECOMMENDATION

/llms.txt and MCP discovery pass. Keep a JSON manifest (mcp_version + endpoints) at /.well-known/mcp — do not serve HTML on those URLs.

EXCELLENT

Brand facts: JSON-LD & /about

CHECK RESULT

Organization schema on homepage; /about HTTP 200

RECOMMENDATION

JSON-LD Organization and /about are in place. Keep name, url, sameAs and contactPoint when editing the template — assistants confuse the brand without them.

EXCELLENT

Robots.txt: AI crawlers & indexing

CHECK RESULT

Allow для AI-ботов: GPTBot, ChatGPT-User, ClaudeBot, anthropic-ai, CCBot, Google-Extended, Applebot-Extended, PerplexityBot; robots.txt: 200 OK; sitemap: 200 OK, 25 URL; Content-Signal: {ai-train=no, search=yes, ai-input=yes}

RECOMMENDATION

AI crawlers are Allow, robots.txt and sitemap.xml return 200.

Do not turn on Cloudflare Managed robots.txt with Disallow: / — that is a severe_block for GPTBot and peers.

EXCELLENT

GA4 / dataLayer readiness

CHECK RESULT

dataLayer + consent stub in head (GA4 G- ID found)

RECOMMENDATION

dataLayer and the Consent Mode stub are already in <head>. Do not move gtag('consent','default') below the cookie banner — Google will miss consent.

EXCELLENT

Content Signals + AI crawler rules

CHECK RESULT

Content-Signal: {ai-train=no, search=yes, ai-input=yes}; AI bots: Allow

RECOMMENDATION

Content-Signal is set: agents know whether they may cite the site in answers vs train on it.

Keep Cloudflare Managed robots.txt off — it strips the directive.

EXCELLENT

Markdown negotiation + agent sitemap

CHECK RESULT

text/markdown on Accept + agent sitemap (25 URLs)

RECOMMENDATION

Markdown negotiation works: the same URL serves text/markdown on Accept and HTML to browsers.

Keep Vary: Accept on the CDN or cache will mix formats.

EXCELLENT

HTTPS & security HTTP headers

CHECK RESULT

HTTPS active; headers 6/6

RECOMMENDATION

HTTPS and security headers are in place. Do not drop HSTS, CSP, X-Frame-Options, X-Content-Type-Options, Referrer-Policy or Permissions-Policy on deploy.

EXCELLENT

Runtime stability (JS errors & failed requests)

CHECK RESULT

No JS crashes or 4xx/5xx responses recorded

RECOMMENDATION

Runtime is stable: no PageError or 4xx/5xx on visited URLs.

Keep console / PageError monitoring on the funnel so a regression never hits paid traffic.

EXCELLENT

TTFB and server response

CHECK RESULT

TTFB 250 ms, Server: cloudflare

RECOMMENDATION

TTFB is in the target range. Keep the CDN and a warm origin so the first byte does not grow after a release.

EXCELLENT

Locale EN · homepage

CHECK RESULT

html lang=en, dir=ltr, overflow-x 0px, forms=1

RECOMMENDATION

Meta and previews for this check are in place. Keep unique title/description, og:image and html lang when content changes.

EXCELLENT

Locale RU · homepage

CHECK RESULT

html lang=ru, dir=ltr, overflow-x 0px, forms=1

RECOMMENDATION

Meta and previews for this check are in place. Keep unique title/description, og:image and html lang when content changes.

EXCELLENT

Locale HE · homepage

CHECK RESULT

html lang=he, dir=rtl, overflow-x 0px, forms=2

RECOMMENDATION

RTL is declared correctly. Keep html dir="rtl" / lang=he and mirrored menus, sliders and forms in future releases.

EXCELLENT

Agent funnel crawl (10 URLs)

CHECK RESULT

Opened 10, broken: 0, with CTA: 10, inner forms: 11

RECOMMENDATION

This funnel page is live: HTTP 200, CTA or form in place.

Do not remove the lead / WhatsApp button in the next release. Keep menu links on real URLs only.

EXCELLENT

Funnel page · /

CHECK RESULT

HTTP 200 · CTA yes · forms 1 (via CTA) · instant yes · 922 words

RECOMMENDATION

This funnel page is live: HTTP 200, CTA or form in place.

Do not remove the lead / WhatsApp button in the next release. Keep menu links on real URLs only.

EXCELLENT

Funnel page · /portfolio

CHECK RESULT

HTTP 200 · CTA yes · forms 1 · instant yes · 370 words

RECOMMENDATION

This funnel page is live: HTTP 200, CTA or form in place.

Do not remove the lead / WhatsApp button in the next release. Keep menu links on real URLs only.

EXCELLENT

Funnel page · /contacts

CHECK RESULT

HTTP 200 · CTA yes · forms 2 · instant yes · 349 words

RECOMMENDATION

This funnel page is live: HTTP 200, CTA or form in place.

Do not remove the lead / WhatsApp button in the next release. Keep menu links on real URLs only.

EXCELLENT

Funnel page · /services/enterprise-engineering

CHECK RESULT

HTTP 200 · CTA yes · forms 1 · instant yes · 1353 words

RECOMMENDATION

This funnel page is live: HTTP 200, CTA or form in place.

Do not remove the lead / WhatsApp button in the next release. Keep menu links on real URLs only.

EXCELLENT

Funnel page · /services/design-branding

CHECK RESULT

HTTP 200 · CTA yes · forms 1 · instant yes · 659 words

RECOMMENDATION

This funnel page is live: HTTP 200, CTA or form in place.

Do not remove the lead / WhatsApp button in the next release. Keep menu links on real URLs only.

EXCELLENT

Funnel page · /services/development

CHECK RESULT

HTTP 200 · CTA yes · forms 1 · instant yes · 728 words

RECOMMENDATION

This funnel page is live: HTTP 200, CTA or form in place.

Do not remove the lead / WhatsApp button in the next release. Keep menu links on real URLs only.

EXCELLENT

Funnel page · /services/management

CHECK RESULT

HTTP 200 · CTA yes · forms 1 · instant yes · 474 words

RECOMMENDATION

This funnel page is live: HTTP 200, CTA or form in place.

Do not remove the lead / WhatsApp button in the next release. Keep menu links on real URLs only.

EXCELLENT

Funnel page · /services/ai-automation

CHECK RESULT

HTTP 200 · CTA yes · forms 1 · instant yes · 682 words

RECOMMENDATION

This funnel page is live: HTTP 200, CTA or form in place.

Do not remove the lead / WhatsApp button in the next release. Keep menu links on real URLs only.

EXCELLENT

Funnel page · /order/audit-diagnostic

CHECK RESULT

HTTP 200 · CTA yes · forms 1 · instant yes · 524 words

RECOMMENDATION

This funnel page is live: HTTP 200, CTA or form in place.

Do not remove the lead / WhatsApp button in the next release. Keep menu links on real URLs only.

EXCELLENT

Funnel page · /order/enterprise-custom

CHECK RESULT

HTTP 200 · CTA yes · forms 1 · instant yes · 863 words

RECOMMENDATION

This funnel page is live: HTTP 200, CTA or form in place.

Do not remove the lead / WhatsApp button in the next release. Keep menu links on real URLs only.

Audit protocol

The Erythro.ai lab checked erythro.ai in three languages (EN, RU, HE) and 10 funnel pages, on mobile (iPhone SE 375×667) and desktop.

230	3	10	2
CHECKS	SITE LANGUAGES	FUNNEL URLS	LIGHTHOUSE DEVICES

- **Site-wide — 55**

  HTTPS, status, TTFB, 6 security headers, robots.txt and sitemap, stability, PageSpeed (10 metrics × 2 devices), 7 AI Visibility criteria, 5 Agent Readiness checks and rules for 8 AI bots.

- **Per language — 28**

  SEO and OpenGraph, hreflang, assets, accessibility, spelling, errors, RTL, 375px mobile layout, forms and anti-spam.

- **Per funnel page — 9 (× 10)**

  HTTP status, soft-404, title, H1, CTA, form, form behind a button, chat and messengers.

- **Funnel review — 1**

  An AI review of the lead path: verdict, gaps and the main funnel recommendation.

Raw JSON with the results of every check is available on request.
