The three problems that hurt lead volume and cost per lead the most.

01 Accelerate Core Web Vitals and mobile LCP

CONVERSION VULNERABILITY | NEEDS ATTENTION

02 AI qualification of inbound leads

CONVERSION POTENTIAL | GROWTH OPPORTUNITY

Lead path

OPERATIONAL

Verdict: visitors can leave a lead on the 5 audited funnel pages — there is a form and an instant contact channel.

LEAD CHANNELS	WHAT THE AUDITOR CHECKS		BUSINESS RESULT
On-page form	HTTP 200, no soft-404	5/5	✓ No lead lost between the click and the form
Form on button click →	CTA or form on page	5/5	✓ Spam is filtered out before it reaches the CRM →
	Anti-spam: Turnstile, honeypot, reCAPTCHA	OK	✓ Messenger visitors get a reply within seconds
Telegram	Instant contact channel	OK	✓ The menu only links to live URLs

Funnel review and up to 10 funnel pages are in Pro

An AI review of the lead path including modal forms and chat: verdict, up to 3 gaps and the main funnel recommendation. Pro extends the crawl to 10 pages.

What Diagnostic and Pro include ↓

How we count the lead path: an embedded form, a form opened by a button (Let's Talk), chat and messengers. A button without a form is a CTA, not a funnel gap, if the click opens a form or WhatsApp.
